

[Facebook Sniffer V 1.2](#)

The image shows a Wireshark network traffic capture window. The title bar reads "Atheros L1C PCI-E Ethernet Controller: Capturing - Wireshark". The menu bar includes File, Edit, View, Go, Capture, Analyze, Statistics, Telephony, Tools, and Help. The toolbar contains various icons for file operations, capture control, and analysis. The filter bar is empty. The packet list pane shows 9 captured packets with columns for No., Time, Source, Destination, Protocol, and Info. The packet details pane shows the structure of the first packet: Ethernet II, Internet Protocol, User Datagram Protocol, and Data. The packet bytes pane shows the raw hex and ASCII data of the first packet, which appears to be a DNS query.

No.	Time	Source	Destination	Protocol	Info
1	0.000000	10.10.10.90	255.255.255.2	UDP	Source port: 17500 Destination port: 17500
