This is hands down one of the best soundtracks i've EVER listened to. I'm a long time hip-hop producer in the chicago area, i love everyhitng about underground hip-hop, the music, the culture - freestyling to beats etc. This is the best 99 cents i ever spent. I'd pay 10\$ for this - honestly.

- Not every track is amazing , but it has enough goodies.

- Grimey old school hip-hop beats

- Sounds like RZA's love child made each and every track with that "good old wu tang" sound.

- If you're an emcee - you will write pages to this \*\*\*\*.. Nice OST for awful game.. Wonderful game best fighting i've ever played. I only ask one thing and that is the stage of the last picture you guys have up, can yall please bring that stage back to this game with the same track?. It's a cool soundtrack, and well worth the money . I just wish that it would show in the "Music" section of my steam library .. Can someone please say how to hear the Kings of Kung Fu OST sound tracks while playing the game. I have tried everything and still no change in the music
